but straight Hardware talk. You may think you'll not read it, but you will. The beauty of business is to do business in a business-like way—keep a good clean dollar-getting stock, sell at reasonable prices, treat customers politely, and rake in the cash when it comes your way. Its time of year to get in out of the cold—hover over the fire—and the need of the hour is

HEATING STOVES.

I have some solid comforts in the old reliable "ROUND OAK," which needs no song of praise to sound its worth. The GARLAND—closing grate, latest improved; highly ornamental and nicely trimmed in nickel—a beauty. Detroit Stove Co's WOOD BASE BURNER, a late pattern—handsome, well made—a regular earth-warmer.

COOKING STOVES.

I have a complete line of best makes and latest styles. But don't come here to buy a cheap stove. I don't keep them. They don't suit my patrons. None but the best for me.

CUTLERY.

Let me jog your memory to the fact that I have the finest line of AMERICAN CUTLERY in this county—which includes the best makes of Razors—Pocket Knives for a regiment of whittlers, etc.

Base ball was the national game only three years ago. Football is the national game to-day. The casualties, if not the fatalities, are several times as large in the national game of to-day as they were under the deposed sport. Nothing but actual war will satisfy the American people pretty soon.

On Monday evening, December 12th, Broadhead Post G. A. R. will elect officers for the ensuing year. Let every comrade be in attendance and see to it that the best material in the Post is placed in the official chairs. The coming year will be an important one to the welfare of the organization.

Mrs. Robert Morrison returned Saturday from Keeler, where she had spent a week with her mother, Mrs. Thos. Galligan, at the home of Mrs. Chas. Duncombe. Mrs. Morrison reports her mother as cheerful, contented and happy and as well physically as could be expected in a lady of her advanced years.

An obscure publication in this county is grieved at finding in the local columns of a contemporary mention of events transpiring "at Allegan, Three Rivers, Niles and Kalamazoo." When this o. p. sheds its down and becomes a full fledged newspaper, perhaps it also may have many readers in other towns than its own who will be glad to see their doings noted in the public press.

The Decatur Republican, like all "the leading papers" in the county, published the election returns of the county on its regular publication day after the election, but its editor does not blush when he claims it to be the first paper of the county to publish such news. "Gall" must be manufactured in the vicinity of Decatur.—Bangor Advance. Gall is a mild name for the material used in that fellow's composition.

If there is any one thing "wanted" in this section above all other things it is more postoffices. Not but what the general public can worry along with what few there are, but when we consider the demands of the numerous parties to whom Grover Cleveland is indebted in a large measure for his election, then we feel the painful inadequacy of our equipment in that direction. We must have more postoffices. At least six are needed in this place.

Quite a little romance comes up from Hamilton, Allegan county. Forty-five years ago Samuel Smith of Kent, Ohio, left his wife and never saw or heard of her until one day last week, when he returned to Kent and they were again married, he being 75 and she 71 years of age. He wandered to the west and drifted back to Allegan county, having in the meantime married another woman who had died; his deserted wife had also married and had become a widow. The couple were re-married and went to his home in Hamilton to pass the balance of their days together.

Biela's fiery wanderer, due at this point at 9:37 last Sunday evening, did not show up on schedule time or any other time, so far as heard from, and star-gazers will have plenty to do for the next month explaining to a curious public why this heavenly spectacular aggregation did not keep its date.

Secretary Baker of the State Board of Health has notified the proper local health officers that the steamship Saale, which arrived in New York Wednesday from Bremen, with a case of small pox on board, brought immigrants bound for Bay City, Alpena, Carleton, Detroit, Hancock, and Ann Arbor.

Mrs. Sarah E. Sortore, widow of the deceased Andrew Sortore, on Nov. 22d, died at the home of her father, Dr. L. F. Wilkinson of Niles, with whom she had resided since the death of her husband. A severe attack of grip last winter left her lungs in a weak condition and induced the sudden hemorrhage that caused her death.

Mrs. Edna Chaffee Noble's poetical description of the Passion Play on Monday evening was listened to by a large and attentive audience. As usual, the varied criticisms passed upon it illustrated the varying tastes of the public, but we number ourselves among many who will always remember this lecture as an exquisite pen-picture drawn by the hand of an artist and delivered with a deep, yet musical tone, in perfect harmony with the sublimity of her subject.

In compliance with a law regarding the filling of aisles, it has been the intention of the Ladies' Lecture Association to place but one row of chairs therein; but the sudden rush for single tickets the evening of the concert so disconcerted the door-tenders, and the half dollars were rained upon them so mercilessly, that an over-sale of tickets made a second row unavoidable on that night. However, this will not be allowed in future, and we make this explanation so that no one may hereafter expect the ushers to show any favors in this respect.

One those brutes which, in justice to the brute creation, has to be called a man, living in this village, has for years been in the habit of amusing himself at night by unmercifully whipping his children. Last Friday night he gave new evidence of his wanton cruelty by pounding one of his daughters (of which he has four) to such an extent that the mother feared he had killed her and sent for a physician. The whole neighborhood was aroused by the screams of the child and the expostulations and entreaties of the mother. A "surprise party" is talked of in that neighborhood.

"Uncle Joe" Kilburn met with quite a mishap on the 17th inst., while en route to Southern California over the Santa Fe road. At some point in Arizona, while running at a high rate of speed around a sharp curve, the engine left the track and plunged head-on into a rock cut, the train, consisting of two palace cars and a tourists' car being smashed into splinters and one man instantly killed. Uncle Joe and John Loveridge and wife were in the tourist car, and Mr. Loveridge was thrown squarely through a window, but fortunately received only trifling injuries. Uncle Joe was quite badly cut about the face and bruised more or less on his head, side and hips, but was able to write a letter to a friend here describing the smash-up and congratulating himself on his lucky escape.

Mutation.

For nearly forty years the NORTHERNER has made its weekly visit to hundreds of homes in Van Buren county, serving as the link that kept many a stay-at home in touch with the outside world, and recounting with a pardonable pride every step of the progress that has set our cosy little village in the midst of its maple bower. The business management has been in various hands and various personages have occupied the editorial sanctum, though through all the NORTHERNER has taken up the refrain of Tennyson's brook and said, "Men may come and men may go, but I go on forever." Thus this paper has come to be one of the old landmarks of the vicinity and is interwoven with the home life of so large a circle, that we doubt not our patrons will feel some measure of satisfaction to know that arrangements are now being consummated whereby its future may rest upon a still firmer foundation, and its sphere be somewhat enlarged. The next issue of this paper will be under the management of the True Northerner Publishing Company (incorporated), J. W. Osborn of Kalamazoo, president, which in making its bow to the public, will severing its bow to the old-time associations but only bring additional aid to the hands that have controlled its action for the last decade.

Under the new regime A. C. Martin will remain the business manager, Hon. A. J. Mills of Kalamazoo will largely control the editorial department, while Mrs. Cora D. Martin will look after the local interests of the paper.

Circuit Court Notes.

Monroe Parker, whom we last week left on trial for robbery, was convicted, as was also Robert Buchanan, impleaded with him. Fred Butts, on the same charge, was allowed by the prosecutor to plead guilty to assault and battery and was sentenced to 30 days in jail. He had already laid in jail five months. Irving Adams was convicted of violation of the local option law, and as we close our report Geo. H. Rix is on trial for a similar offense.
